

Mulloon Rehydration Conference

1-2 May 2024

Queanbeyan, NSW

The MRI – Scaling Landscape Rehydration Presenting our Nature-based Solution

DAY 1 & DINNER: QUEANBEYAN BICENTENNIAL HALL

253 Crawford St, Queanbeyan NSW

DAY 2: ON-FARM AT MULLOON CREEK NATURAL FARMS

3585 Kings Highway, Bungendore NSW

The Mulloon Rehydration Initiative (MRI) is a model that can be scaled up to deliver Nature-based Solutions across Australia through collaborative partnerships. This conference will showcase the United Nations-recognised work of Mulloon Institute and our partners in driving change and positive environmental outcomes. We will be presenting the findings coming out of the MRI project, our Learning Programs and capacity building program, and our regulatory reform agenda. Panel discussions will dive into landholder experiences, the challenges and opportunities of financing landscape-scale restoration, and our work across Australia. We demonstrate real-world evidence of the returns when partners collaborate in transforming our landscapes with Nature-based Solutions.

DAY 1 features keynote speakers, highly engaging panel discussions with MRI landholders and industry experts, workshops, and discussions on how to more broadly roll effective programs and projects to increase the economic benefits of rehydration across Australia.

Then, join us for an evening of networking, drinks, and dinner, where you can connect with like-minded professionals and expand your circle over great food and conversation!

DAY 2 will feature field trips to see landscape rehydration in action, buses will depart from Queanbeyan.

PRICING

DAY 1: \$365.00

DINNER: \$120.00

DAY 2: \$85.00 inc. return bus from Queanbeyan to Mulloon Creek Natural Farms
